# Welcome to our inaugural Pyramid Yoga Festival!

We hope that you will join our tribe on this remarkable passage towards self-discovery and personal growth.

Come hear music, practice yoga, meditate, relax, and rejuvenate. Attend diverse lectures with carefully curated guest speakers. Participate in practical workshops. Acquire useful life-skills. Learn to be more sustainable and more efficient in your conservation efforts. Develop effective public speaking skills and successful debate tools. Delight in the rich flavors of yummy plant-based foods.

**Heal and relax – reconnect with your true artist self.  
Share in your experiences, meet new friends and have fun!**

**Let's embark on this exciting journey together - towards a more creative, inspired, mindful, and fulfilled life.**

## **Mission:**

We are set to create an annual global festival offering 3 days of unique experiences connecting yoga, music, art, talks, plant-based foods and creative workshops.

Bosnia & Herzegovina is an exceptional travel destination with a rich tradition, culture, and history. Because of its particular position as a crossroads between the east and the west, it has often served as a birthplace of progressive ideas. We are committed to carrying on with this tradition, but this time, with a set intention towards exploring ways to create a more spiritual, sustainable and equitable World for all its creatures, big and small.

## **Vision:**

Our vision is to become a choice destination festival in Europe bringing together world-class teachers, yogis, musicians, artists and speakers from all corners of the world to foster open dialogue and collaboration.
